Hi Jerry,

I think that will work, I don't have access to David's calendar right now. I can confirm with you tomorrow. Yesterday it was open at that time. In the meantime let's get a handle on the status of your activities.

Can you give me an update on what you are working on right now and your planned activities between now and March 7? That would be very helpful. thanks!

Michele

March 7 is fine and I'd like to do it in the morning – 10 AM?

That's interesting, thanks Jerry.

Those afternoons actually do not look good for me (Wed) or David (Tues). I was going to suggest Friday but I think David is out. What about the week of March 3?

Hi Michele,

My trip to Santa Maria/Orcutt (D3) district office clarified the question about those 13 wells that apparently had less than 3,000 TDS. The ten wells have less than 3,000 but the injection zone used to be a waterflood zone (hydrocarbon producing) and clearly meets an exemption criteria. The 3 wells turned out to be more than 3,000 but still, the injection zone is also hydrocarbon producing. I will include these wells in the tally for hydrocarbon zone extensions.

The rest of the week for me is tight. But Tuesday/Wednesday next week in the afternoon is open. Let me know what you think. Thanks.

Jerry

Hi Jerry,

I hope your meetings with the districts went well last week.

When we met on Feb 7 we discussed planning our next meeting. Can you give me some dates to work with? Thanks!

Sincerely,

Michele
