Hi Tim,

My preference is to talk with you directly about the submittal. I was looking for 15 minutes to talk, this is not a formal meeting request.

Hi Michele,

My week is very full due to a So. California trip later in the week. Additionally, Monday through Wednesday next week I'll be in various meetings in the Bakersfield area.

Since I am not familiar with the exemption request details, I wondering if you might be better served by disusing the exemption request with Cam and Jerry, and maybe someone from our local district office.

If so, I can have Heidi set up that meeting. If you need me in the meeting it may take a week or more to get it scheduled.

Please let me know your preference. Thanks.

Subject: Submittal of Cat Canyon Aquifer Exemption Package - Telecon request

Hi Tim,

On February 20 I received a package from Cameron Downey of your office regarding a request for an aquifer exemption in the Cat Canyon field.. I would like to talk with you about this submittal, hopefully this week. Can we set up a call between the two of us? Please let me know a couple of times that may be convenient for you and I will book myself a conference room to use.

Sincerely,

Michele
