CA Primacy - HQ marked copy of Dec 3 1982 AG and MOA.pdf
19821110 Rec Comm Baltey & Brasier to Thurston.pdf

Please print these out as well, thx.

Jessica,

Following up on Sylvia's message, we do not have a separate scanned stand-alone Version B of the EPA-DOGGR MOA (the one which lists all 32 aquifers as exempt), but it is part of the "Dec 13 1982 Transmital" pdf that Sylvia forwarded to you this morning.

I am also attaching two other important documents: (a) the EPA HQ marked up copy of Version B of the MOA – see the last page with notes (presumably by HQ staff) re "aquifers not to be exempted in October 20 submittal"); and (b) a Nov 1982 Record of Communication which states that ODW wants R9 to remove from the MOU the discussion of aquifer exemptions and handle this issue by 'gentlemen's agreement.'

Just forwarded this and your next email with the State's app to Jessica. Go ahead and send her version B when you have it.

Sylvia –

Here are the documents you requested, except for Version "B" of the primacy MOA and the HQ file version of Attachment 2 (which has notes identifying aquifers not to be exempted), which may need to be scanned. I added the main primacy transmittal from R9 to HQ.

I will try to send the State's primacy application separately.
