Hey – at the Exide meeting yesterday Mohsen Nazemi who is a new assistant director with DTSC (he was in charge of enforcement at the AQMD for a long time but got purged recently) asked for us to discuss the cleanup levels and triggers at Fruitland, so DTSC knows exactly how we are approaching the RSLs etc.

What would be a good time next week to set up a call? I think the sooner we do this the better. I want to avoid any late hits.

Dan

Hi All:

I have attached a draft reply to Rep. Roybal Allard concerning the cleanup of the Fruitland Magnesium Fire site in Maywood.

I wanted to send this past each of you for any input on the text, since it describes your respective programs, just to make certain that we all agree that the letter accurately describes the cleanup process.

If you could please take a look at the text and give any feedback by Monday COB, that would be tremendously helpful. I'm checking separately with AQMD concerning their information.

Thanks very much for any time that you have for the review.

Please let me know if any questions come up.

Best,

Grant

Deputy Secretary for Environmental Policy
