Subject: Incident Action Plan draft for updates requested by tomorrow

Date: Thursday, February 25, 2016 1:45:02 PM

Attachments: Portland metals emissions-IMT contact information-2-23-16.docx
Portland metals emissions-IAP-2-26-16 DRAFT.docx

Afternoon everyone,

I've attached the best working version of the Incident Action Plan complied by Julie Black, our planning section chief who talked about this on yesterday's call. It is based off the last version of the plan we developed, combined with the future timelines developed by OHA and DEQ for the testimony early this week.

Please have revisions to Julie Black by 10 AM tomorrow. Sorry if this late notice for some of you. We'll get into a rhythm in coming weeks.

The last page includes the current org chart as well, which may need adjustments and definitely needs names in the boxes ASAP.

Thanks,
Eric
