Subject: [EXTERNAL] Final Version of the Bridgeton Dust Pre-CERCLIS Screening QAPP and approval memo

Hi All,

I want to say thanks again for all your expeditious work to review and provide feedback for this QAPP and subsequent investigation. Please know that myself and the rest of the EPA team greatly appreciate your willingness to support us on with this effort.

I have attached the final version of the QAPP which was approved today along with the approval memo.

Please note that after our call Wednesday, EPA made several improvements to the QAPP based on your feedback that I believe you will find make the intent of our investigation and how we intend to conduct it abundantly clear. I'm happy to talk to anyone in this group that should have questions or if you want to understand more about how your feedback was incorporated.

Thanks again for participation and happy holidays!

Tom Mahler

On-Scene Coordinator

US EPA Region 7
