SUBJECT
Possible RCRA violations with shipment of PCB contaminated waste.

SUMMARY OF COMMUNICATION

I left Dave Philipi a voice mail message concerning my review of the information submitted by CTA Environmental, Inc., with respect to RCRA issues: from the information provided, I did not see any ongoing RCRA issues. One potential RCRA issue is incorrect waste determination. It appears that the Defense Reutilization + Marketing Service (DRMS) may have incorrectly classified its waste WRT PCB content. Therefore, it is possible that it may also have incorrectly classified its waste WRT RCRA. However, this is not certain, because from the information given, it is not clear that the waste generated at DRMS was the waste that caused the PCB contamination. The information + conclusions provided by CTA + Hydrocarbon Recyclers, Inc. are contradictory in some cases.

CONCLUSIONS, ACTION TAKEN OR REQUIRED

I verified, through voice mail, that Dave Philipi received the message.
