Hey Dave, that's the back up. I actually meant we're going to access at the other gate. However, to keep it simple we'll go in the gate you mentioned. We'll stop by your office on the 11th around 10 am so you can let us in. Ok?

Thanks, jon

Hi Jon I would assume you are talking about the sliding gate back by the Praxair line where it goes back underground located back by the old cooling towers. I have the key for that and I will make sure that its open when you come by.

Dave

External Message

Hi Dave, I'm coming back to the site on May 11th with some contractors. Rather than go in the traditional way, I was going to use the entrance to the south, near the RR tracks entering by the

old Linde/Praxair facility. I have the keys to the LCP gate, but I noticed there's a new fence around the GAF site. There's a gate there as well, but I don't have the key. Would it be possible to leave that gate open on the 11th? If not, we'll need access the "traditional" way.

Thanks, jon
