Transporter only File- MOD000687418

RECORD OF COMMUNICATION	☑ PHONE CALL ☐ DISCUSSION ☐ FIELD TRIP ☐ CONFERENCE ☐ OTHER (SPECIFY) (Record of item checked above)	
TO: Roland Miller, Environmental Emergency Services	FROM: Bob Stewart	DATE 2/10/82 TIME

SUBJECT
Storage of Ellisville waste at EES

SUMMARY OF COMMUNICATION

Mr. Miller had talked to Jim Long recently. He told me that they planned to send the currently stored waste from Ellisville to ENSCO as soon as the lab analyses were completed. This should be in the next week or so, before March 1.

When they get rid of the Ellisville waste, they plan only to store hazd waste for less than 10 days in accordance w/ 263.12 they have notified as a transporter. They had planned to do this w/ the Ellisville waste, but the Missouri lawyers made them hold it longer to enable inspection by the companies involved. They are also submitting a Part A, but they don't really need to.

Miller saw no need to submit a Part B, since they don't intend to handle hazd waste except as a transporter.

TO: Tom Pauling - MDNR	FROM: Bob Stewart	DATE 2/9 & 2/16/81 TIME

SUBJECT
Ellisville permits

SUMMARY OF COMMUNICATION

2/9 - I told Tom about the plan worked out by Long-Morby-Sanderson, et al re the Callahan site & EES. Told him we planned to issue an emergency permit to Long on Callahan site and that DNR would receive a permit application from Long. Told him EES had no interim status to store waste & that I would call Roland Miller re a part B. Tom said he would get w/ Long and work out the details on the permit. He said they wanted to do an emergency permit rather than a regular one.

2/16 - I called Tom to let him know of conversation w/ Miller at EES. Foresee no problems. DNR is still pursuing emergency permit and has one ready for signature now. They know they can't reissue but plan to issue a new permit in 90 days if necessary.

CONCLUSIONS, ACTION TAKEN OR REQUIRED
