RE: Site Status & Request for information From Drew Goddard, Attorney for the site.

Drew Goddard called @ 10:15 Am to inform me that the steering committee was planning a meeting on 1/25/94 to discuss future activities. Plans are to conduct some remediation of site (source) soils & complete RI characterization requirements.

He said the he also needed the 1-23-93 Croft Spring sampling data for TPH data. He couldn't locate it in the central office files. I told him that I would look it up & send it to him if we have it.

He said that he would inform us once a work plan was compiled.
