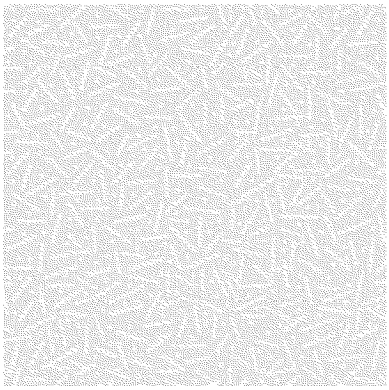
Subject: Request for 30 day extension to the comment period for Tri-City PN



Tom,

As a follow-up to our conversation regarding the proposed Centerville Properties Development by Tri-City Properties, LLC in Chesapeake, Virginia, EPA formally requests a 30 day extension of the comment period on the Public Notice NAO-2006-5097. As we discussed, this is a very complex project with considerable proposed impacts to high value aquatic resources. In order to provide a more substantive review of the public notice a site review with your staff and the project consultant has been scheduled for next week; which is after the current comment period closes.

EPA intends to provide detailed site specific comments for the Centerville Properties Development in response to the Public Notice. EPA makes this extension request due to the size, scale and complex history of the project, the extensive information to be reviewed as well as to accommodate the site visit scheduled for next week.

Thank you for your consideration of this request. Please let me know if you have any further questions.

I look forward to your reply,

Jeff
