Subject: FW: NPL Project (SW Wyoming- BLM) review of Draft Chapters 2 and 3 - Tim's Preliminary General Conformity Comments

Suzanne, Not sure if anyone's forwarding this to you or not... but my thinking at this point is to insert a placeholder in our Chapt 2 and 3 comments to npl that says we may have additional comments on the gen conf.

Tim and Ken

With the various court-ordered deadline projects this week (and now being out of the office the next two days), it's looking like I won't get you my comments until Monday morning at the earliest. Tim and I talked earlier this week and I support his comments conceptually, but will have suggested edits. Sorry about this delay....just lots going on. Doesn't appear we've heard from Tom Coda yet either?

Thanks

Subject: NPL Project (SW Wyoming- BLM) review of Draft Chapters 2 and 3 - Tim's Preliminary General Conformity Comments

Hi Sara and Tom,

The Wyoming BLM has asked EPA to give a preliminary review of the drafts of Chapters 2 and 3 of the Naturally Pressurized Lance (NPL) project that would be located in southwest Wyoming in the Upper Green River Basin (UGRB) 8-hour (75 ppb) ozone NAAQS nonattainment area. Chris Razzazian was kind enough to extract the relevant general conformity language from the drafts of Chapters 2 and 3 which is provided further below. I too reviewed the two chapters and did not see other relevant general conformity language (for reference, the .pdf files of both chapters are provided at the bottom of the email chain). I did prepare draft preliminary comments on the general conformity language and have included my review and those comments in the attached Word file below. Referred to BLM

Referred to BLM Ex. 5 - Attorney Client

Ex. 5 - Attorney Client

Ex. 5 - Attorney Client (as an example, I also included a State-issued drilling rig permit that was issued to Encana who is also the NPL project proponent).

I would very much appreciate if you folks could review my draft general conformity comments and provide any suggested edits/comments. Realizing that everyone's schedules are likely stacked with other competing requests, could I ask for any comments by Thursday, February 28th 28th? Ken Distler of our NEPA program was able to negotiate an extension from BLM for comments, but to make this revised time frame I need to send comments to Ken by Monday, March 4th.

Hopefully this request can work for both your schedules and thanks in advance for the assistance!

Tim

Subject: Fw: Conformity? - Fw: NPL review of chapter 2 alternative B and Chapter 3 - Tim's Preliminary General Conformity Comments

Hi Chris and Scott,

I have prepared a draft version of my potential comments for the BLM, but did not put them in the comment matrix as I would like feedback/suggestions first. Also, I believe we should run these general conformity comments by Tom Coda (OAQPS) and Sara Lauman (8ORC) before sending them on to BLM. Attached below are my preliminary comments:

<< File: Draft-BLM-NPL-General-Conformity-Comments-TJR-2-15-13.docx >>

Please note, that for my comment #3, that refers to/addresses the permitting of drilling rigs, under **Draft comments for section 3.2.2.2 General Conformity for Ozone** ; please see the below attached .pdf file of Encana's "voluntary" drill rig permit:

<< File: 8122per.pdf >>

Please let me know if there are questions and to discuss.

Thanks!

Tim

Subject: Conformity? - Fw: NPL review of chapter 2 alternative B and Chapter 3

Hey Tim,

Per my request of a few minutes ago - here is the conformity language pasted out of their draft chapter 2, on page 2-5 and 2-6 (in case this format is too hard to read - as it is for me)

Referred to BLM

Referred to BLM

Here's what they have from Chapter 3, page 3-5

Referred to BLM

Referred to BLM

Thanks so much Tim!

Chris

Subject: Fw: NPL review of chapter 2 alternative B and Chapter 3

Chris, Attached find Chapters 2 (Alternatives) and 3(existing Conditions) of the preliminary DEIS for the NPL project. We only have 2 weeks for the review. Because of the short review time please limit your comments to more substantive elements (note one special area is general conformity)...Please have your

comments back by Feb 20. Thanks.
