The site structure makes sense. Just had a few questions about access:

- Who are the "Other"? I was assuming that EPA's consultants (Louis Berger, HDR, Battelle) and EPA's contract manager (USACE-KC) would fall in the "EPA" category, but perhaps you were labeling them "Other"?
- I would prefer that all comments come through EPA for now, including from NJDEP. This may change as we get into permit requirements. So for now, NJDEP should not have "Add" rights in any of the categories.

Subject: Sharepoint site

Hi Alice,

As discussed, please see the draft Sharepoint site structure we propose establishing for use on the Lower 8.3 RD. It's a pretty simple initial start and you are certainly welcome to comment. We expect to expand or add detail as the project progresses, but I am optimistic that the initial hierarchy will hold without too much tweaking other than perhaps addition of work groups as they become more established.

If you can provide names and emails for folks you propose access, we'll get rolling and can use this for posting, deliverable transfer, etc.

Thanks!

Juan
