Hi

FYI and I'm ok with Rick's comments on glyphosate and chlorpyrifos, I think we just accept them but the tracking chart confuses me…

Importance: High

All – Attached is the latest draft of the PPDC agenda. The biggest change was the addition of the report out for the Pesticide Incidents WG at 2:55 (we took 15 from 21st Cent. Tox and 5 min from the break).

Rick has reviewed all of the material submitted for the PPDC meeting on May 3rd - **see the attached file called, "Tracking Chart…" for Rick's general comments**. The documents with Rick's specific comments are also attached.

What does this mean for you:

1. If your document is highlighted in yellow in the Tracking Chart, please revise your doc per Rick's comments. Please return asap – as Rick needs to review it and we need to post all materials on the website.

2. If your document is not highlighted in the Tracking Chart, you just need to review Rick's minor tweaks. I will "accept" the comments in Word and consider them final (unless you tell me otherwise).

Thanks!

Dea
