Subject: Extremely Large CAFO Maricopa County, AZ Air Quality Permit

Hello everyone,

I am very concerned about a Non-Title V air quality permit that is being issued to Hickman's Egg Ranch in Tonopah, Arizona. It is an extremely large CAFO in Maricopa County, which has a history of violations and citizen complaints. We did not get to comment on the original permit, so this modification is the community's first opportunity to provide feedback to Maricopa County Air Quality Department. I provided informal comments to the agency after the permit was originally issued.

I realize that you will probably not reply to me, but I want to make you aware of our community's plight and ask for your help.

I've attached my comments, the application, the technical support document, and the draft permit.

Thanks for anything that you can do,

Dan Blackson
