All,

One final update before the weekend, there wasn't enough interest in the box lunches so everyone will be responsible for bringing their own lunch. Since we might actually get some summer weather next week (no guarantee) I would also encourage everyone to bring adequate hydration..... Have a great weekend. Steve

All,

Attached are two maps that will help you find your way to the Little Pee Dee State Park. I have made arrangements to utilize the large picnic shelter behind the park office. It shouldn't be too hard to find, since there is only one road in and out of the State Park. See you at 10 am.... If anyone gets lost, you can call me at 803 413 4440. Thanks. Steve

All,

First, I would like to thank all of you for getting back to me so quickly on your availability for the first week of September. The bottom line is that not everyone is available during the first week of September, so we will NOT be changing the field view date. We will meet on August 28, 2013, at 10 am to field view the Long Branch stream mitigation site.

Second, I would like to meet everyone by 10 am at the Little Pee Dee State Park. I will be letting you know specifically where we meet within the Park in the next day or so.... But if you would, I would like to get a head count of those interested in attending. So if you would, please let me know who from your organization will be attending. I am anticipating that we will meet at the State Park and then ride together in vans to view the site. This is being done due to the fact that there is limited parking along the roads adjacent to the mitigation site...

Finally, since this site is in a rural location with few lunch alternatives near this mitigation site, I wanted to let you know that there has been some discussion about box lunches. Now I know some of you may prefer to bring your own lunch, but for those that would not, I wanted to get a quick survey of those who would like a box lunch. Now I do not have the details of what sandwiches are available (Ham, Turkey, Roast Beef, etc.), variety of chips, or which sodas are available, but I will have these details in a day of so. Right now I just want to see if there is any interest....

So if you would, please send me the number of attendees and if any would like to participate in the box lunch program. And if you have any questions, just let me know. Thanks. Steve

All,

After coordination and some schedule shifting (thanks to all), we will meet on August 28th to field view the Long Branch stream mitigation site for the I-73 project. I believe the we should be able to cover the site in one day. At this time I am proposing that we meet at the Little Pee Dee State Park at 10 am on the 28th. The State Park will provide a place for us all to park our cars and then we can "ride together" to reduce the number of cars parking adjacent to the mitigation site. I will be working on finalizing arrangements with SCDOT/Baker and getting back to everyone by the end of this week. Let me know if you have any questions. Steve

All,

I have heard from several of you who are interested in attending a field view of the Long Branch Stream mitigation site for the I-73 project. So now I am trying to set a date to do so. Right now I am looking at August 27, 28, or 29. I believe that we can complete this field view in one day, and I would propose that we would meet on site around 10 am. I would ask that if you are interested in attending, please let me know which day works for you. Once I hear from all interested, I will let you know the day.

Let me know if you have any questions. Thanks. Steve
