Subject: Aide from Rep. Rice's office on site visit

Allison, Larry –

I just learned that an aide from Rep. Tom Rice's office (South Carolina 7th district, Ways & Means) made an appearance at a site visit related to the I-73 project. Kelly Laycock, project lead for the wetlands regulatory program said it went well, with the applicant being responsive to

Kelly's questions. At the end of the site visit, the aide commented on the constructive nature of the interaction – sounds like a positive.
