ELIS SEIS- PO Modeling Report without Appendices Coopreview82114 tjf edits.pdf

Hi Pat,

I need to pull out the file with my comments and a lot of my comments are regarding contract, in addition to the technical comments.

Here are tom's comments. I have not even had a chance to read them.
Right now I have a call before the webinar so I won't get you my comments until later but here are several of my general comments:

Ex. 5 - Deliberative Process

Do you have time today... can we chat briefly? I am curious about your ODMDS sites that are sandy areas... they were designated according to the USACE?

Hi Tom,

This was sent out last week.

The top one is the modeling report. Thanks!

Hi All,

Jennifer has informed me that George Stafford has retired. His replacement as Deputy Secretary of State is Matthew Millea.

Mike/Jennifer, please remind me when we submit the LIS DMMP Annual report roster for review. Thanks

Hello Cooperating Agency Representatives,

EPA would like your participation with the following items:

Deliverables:

1) PHYSICAL OCEANOGRAPHY STUDY

During our last Cooperating agency call, we discussed the Physical Oceanography study.

The data has been compiled and is presented in two separate reports (see attached):

- the Physical Oceanography Data report presents data collected by UCONN from different time periods for current meters deployed within the ZSF

- the Physical Oceanography Modeling report presents worst case scenarios for the original 11 sites using data collected using bottom stress data.

Please provide comments to me by September 8, 2014 on the following deliverables:

- Physical Oceanography Data report

- Physical Oceanography Modeling report

COOPERATING AGENCY MEETINGS:

1) Please reserve next Wednesday, August 27, 2014 from 1-3 to join us for a webinar to assist in your review of the Physical Oceanography reports.

The contractor will make a presentation on the Physical Oceanography study and there will be an opportunity to ask questions for clarification.
