Re: Fansteel Metals

- Fansteel Metals
  - Refractory Metal Manufacturer
Production - Raw materials - uranium + thorium
  low level radioactive -,
  elements tantalum + columbium
  (nobium), and solvent extraction
  - Solvents ~~used~~ or other chemicals
  used - hydroflouric hydrochloric + sulfuric
  acid, methyl isobutyl ketone,
  anhydrous ammonia, potassium
  flouride, potassium hydroxide
  - Contamination
  Soil PCBs, unknown hydrocarbons,
  metals including arsenic,
  beryllium, cadmium, nickel.
  GW - Arsenic, 4-methyl-2-pentanone,
  Cadmium, Chromium
  SW - Ammonia

- ~~Jim Lansbury~~ Arthur Wiseman is person to talk to
  Policy Analysis Group -
  382-2182

195908

- Gunther believes NRC will only address cleanup
for source materials wastes + not other haz. materials.
