Aerovox update - We need to ask Robert if he still wants the cross sections in 3D. I would really like to see that but we should still ask. Also, I am going to set up a meeting/conference call to discuss data gap results and to briefly discuss the Aerovox IRA and Phase III work and its potential impacts on our site. Last week, I did request that Jacobs start working on an addendum to the 2012 Aerovox shoreline tech memo with all of the additional data as well as updating last year's remedial alternatives memo for waste types/ delta [ ]s for TCLs. I forgot to mention my request on that on the call today but will follow up.

Dave L. Please clarify/correct as needed.
