Meeting 8/25/82

① Aquifer exemption - include entire or portion (geographically)

② Movement of contaminants within aquifer

③ Characterization of aquifer - completeness of data

④ Board concern of not degrading any aquifers (oil zone injection OIC). Residual HC a concern in addition to TDS.

UIC tied to drinking water (SDWA) -- other concerns for other groundwater beneficial uses not taken into account! (Ag use, etc.)

⑤ CDOG has a BCP in for + 3 sy in 83-84
SWRCB will attempt to negotiate w/ CDOG first.

⑥ Review of list of aquifers identified as possible exemptions

⑦ Exemptions ("blanket?") - definition?
- entire aquifer vs. portion?
- fluid-specific?
- over 10,000 TDS?

⑧ Duration of exemption - ability to pull exemption.

⑨ Technological and Economic feasibility -

DEGRADATION - BENEFICIAL USE - LIMITATION QUALITY

ENTIRE VS. PORTION

1 ~~GEOGRAPHIC AREA~~

* 2 MIGRATION, IF PORTION

HC WASTE

* 3 ACCURATE DATA ?

DISCUSSED WITH MARTY ?

COMPLETE DESCRIPTION

* 4 LIMITS OF SDWA → DW

5 CRITERIA / EXEMPTED NON-EXEMPTED STATUS

6 AGR / INDUSTRIAL USE

DOMESTIC & AGRICULTURAL

GENERAL PRACTICE, IF FEASIBLE

? REINJECT INTO SAME O&G ZONE OFF LEASE

7 "BLANKET" EXEMPTIONS.

8 > 10,000 TDS

9 PERMANENT EXEMPTION

10 FLUID SPECIFIC

11 TECHNOLOGICALLY / ECONOMICALLY FEASIBLE

DEGRADATION - BENEFICIAL USE - LIMITATION QUALITY

ENTIRE VS PORTION

~~(1) [illegible] AREA~~

* (2) MIGRATION, IF PORTION HE WASTE

* (3) ACCURATE DATA ?

DISCUSSED WITH MARTY ?

COMPLETE DESCRIPTION

* (4) LIMITS OF SDWA → DW

(5) CRITERIA / EXEMPTED NON-EXEMPTED STATUS

(6) AGR / INDUSTRIAL USE

DOMESTIC & AGRICULTURAL

GENERAL PRACTICE, IF FEASIBLE

? REINJECT INTO SAME O&G ZONE OFF LEASE

(7) "BLANKET" EXEMPTIONS

(8) > 10,000 TDS

(9) PERMANENT EXEMPTION

(10) FLUID SPECIFIC

(11) TECHNOLOGICALLY / ECONOMICALLY FEASIBLE
