glyphosate web cheryl edits.docx

Hi Rick, FYI. I've been trying to do these "quick glance reviews" when I can to save the Divisions' time. I've sent this on… even though glyphosate is now delayed.

Take care,

Linda

Dian, really helpful. As promised, here's my quick feedback. I took a look and suggested deletions and other changes – Cheryl did a great job taking that and re-organizing the page. I've attached both so you can see.

Hope this facilitates the review.

Another thing to also take a look at is that the descriptions of the eco risk assessment results conflict a bit in the press advisory/Q&A/web.

Even thou the release has been delayed a bit I wanted to get this to you right away. Thanks for all your work on this.

Linda

Hi Linda,

This has not been reviewed by management here, and it is missing a couple of paragraphs that HED will draft/craft after the briefing tomorrow. I'm sending it now because you want to see what we have now. Again, not final, no management concurrence!

Thanks.
