
NOTES:

- 1 ½ story residential structure located in Lewiston, Niagara County, New York.
- The structure was built in two phase: First phase in 1982, the second phase around 2005.
- The original structure consisted of a 1 ½ story structure with poured concrete basement.
- Thickness of basement walls and floor are unknown.
- The footprint of the original construction is approximately 1,000 square feet.
- The second phase of construction included a 1 ½ story addition (approximately 600 square foot footprint) that included a crawl space, no basement expansion.
- There is a sump located in the northeast corner of the basement.
- There is no outside basement access (i.e. bulkhead).
- Distance measurements presented in feet.
- Distance measurements are approximate and need to be field verified.
