WILLIAM L. CHENOWETH

Consulting Geologist

707 Brassie Drive
Grand Junction, CO 81506-3911
(303) 242-9062

Aug 2, 1991

Dear Bill:

While looking up some references for my Dept of Justice work, I came across these published references to Santa Fe's early uranium work at Grants. I thought you might want them for your files.

Sincerely,

Bill Chenoweth

Reference No. 3 is what we discussed on the phone last week. The Engineering & Mining Journal (E&MJ) is still being published today.
