Thanks Karen. Can you give me a guestimate on the timing of that? I am not sure if that means it's in finance any day now or it just got there and it could be a week.

Thanks

Tony,

EAS Request # 00280, in the amount of $200,000, is being requested to increase Task Order 23 with Guardian, the Niagra Falls Blvd. Site. With this increase, the new Task Order ceiling will be $500,000. The ERRRD Director verbally authorized a mitigation ceiling of $500,000 for this Site on May 13, 2016. The funding is necessary to continue with removal action activities which include the excavation and disposal of soil contaminated with radionuclides and to conduct all appropriate restoration actions. As you know, Eric Daly is the OSC of record for this Site. The IGCE form is attached to the EAS request and to this email for your convenience.

Please contact Eric or myself should you have any questions regarding this request.

Thanks,

Mark
