Subject: Upcoming NFB Removal Work/Hotel Reservations
NFB-HTC-UMR Calendar 05-12-2017.pdf

Good Afternoon:

I know we discussed our next phase but we need to finalize plans. Most of us will be traveling on June 7th in order to prep for June 12th load out for disposal.

For GES, Frank you will have to determine who you need at the site to receive the equipment and prep for the loadout on June 8th . The attached schedule has us working on Saturday, June 10th for planning purposes but most likely we will not need to. The rest of the crew can travel on June 11th for Monday work. June 16th should be our last day loading out trucks with travel on June 17th.

For Weston, I believe we need a lead (preferably Patrick), Chad and one other technician with a June 7th travel day. I am sure we will need to run more Germanium samples. However, if Chad finishes all the sample this tour, then we may be able to get away with Patrick and Chad. Duties will include photo documentation, log information, and any other duties Weston performed previously for each soil/slag load out. Weston will also be gamma scanning each truck prior to departing site. Chad has performed all of these duties and will be able to give a better idea of how many Weston we should need for this. We will also need to gamma survey the last section of Area 5 (currently Lake Slag) and the northern portion of Area 7.

Hotels need to be addressed ASAP. Getting per diem, especially for weekends is going to be tough now that the weather is getting warmer.

Per diem is still $91 through June 30st and goes up to $120 on July 1st. I think the increase should start June 1st if you ask me. If you cannot get per diem on your own, please consult with Danny Odell. He has assisted us in the past in getting Holiday Inn per diem. His info is below. Please let me know if you have any questions. Thanks

Danny Odell
