US Environmental Protection Agency, Region VIII
999 – 18th Street, Suite #500
Denver, CO 80202-2466

RE: Certification of Compliance with 40 CFR 63 Subpart G HON Wastewater Provisions

Dear Mr. Clough:

In accordance with the wastewater provisions of the Hazardous Organics National Emission Standards for Hazardous Air Pollutants (the HON rule) found at 40 CFR 63 Subpart G, Safety-Kleen Corp. is providing this certification for the following facility:

Safety-Kleen (Aragonite), Inc.
EPA ID# UTD 981 552 177
11600 North Aptus Road; Aragonite, UT 84029
P.O. Box 22890; Salt Lake City, UT 84122-0890

This certification is valid until such time as the facility notifies the Environmental Protection Agency rescinding acceptance of responsibility for compliance. Such notice shall be provided at least 90 days prior to revocation, as required by 40 CFR 63.132(g)(2).

Based on the Aragonite facility's interpretation of 40CFR 63.132 (g) and associated regulatory references within this part, it is the facility's opinion that the existing monitoring, reporting, and recordkeeping that is required under 40CFR 265 Subpart CC sufficiently meets the monitoring, reporting, and recordkeeping requirements associated with the 40CFR 63 HON Wastewater provisions. The subpart CC requirements and associated compliance plan is incorporated into the facility's RCRA operating permit requirements.

We believe this certification statement satisfies the requirements of 40 CFR 63.132(g). For further information regarding this certification, please contact me at (801) 323-8151.

Sincerely,

Doug Legge

CERTIFICATION STATEMENT

SK certifies that any HON Group wastewater stream or residual removed from a Group 1 wastewater stream that is received at the Safety-Kleen (Aragonite), Inc. facility from a source subject to the requirements of 40 CFR 63 Subpart G shall be managed and treated in accordance with the requirements of 40 CFR 63.133 through 147. By providing this certification to the U.S. EPA, Safety-Kleen accepts responsibility for compliance with the provisions of 40 CFR 63.133 through 147 with respect to any shipment of wastewater or residual covered by the written certification.
