Eric –

You should be able to see the manifests now. By the way, I am not extremely fast. Frank had them set up and well organized. We will continue this from here on out. Let me know if for some reason you do not see them.

Thank You

Chad

You don't have to rescan. Just whoever has them individually put them in folder. If it's Frank, please put on thumb drive for Chad. I just want easy access. If I can't find them first crack, then others won't be able to. thanks

Hi Eric –

I do not know why you are only seeing photos. I opened up the 2016 folders and found the PDFs with the scan and the manifest. I will go ahead and scan the manifests and put them in the folder you provided for easier access. Please let me know if you need anything else.

Thank You

Chad

I am not finding the location you are referring to. I was just looking at the Dec 2016 folders and only saw photos of trucks. We need to find them easy for reference. Let's have manifest only in one folder. It doesn't need to be broken down by day. Month is fine.

Is it that you want the manifests in a separate folder? Chad just showed me where they are,

which is on the last page of the pdf in the T&D screening doc folder.

Does that satisfy the need or do want them uploaded in the new manifest folder also?

Hi:

Can we get the electronic copies of the manifest up on the OneDrive? Chad and Carl should have rights. I can't seem to give Frank rights. Chad has been putting up the T&D screening docs up there. Below is the link to take you right to that folder. Thanks
