Subject: ATSDR Preliminary Summary of Hickman's Air Monitoring Data & Conference Call
DRAFT Preliminary ATSDR Review of Hichmans Egg Farms Environmental Information.docx

Hi EPA, ADEQ, and Maricopa County Air Colleagues,

As you know, ATSDR has been gathering available air monitoring data for the Hickman's facilities in Tonopah and Arlington to help us make a decision on whether to conduct public health assessment activities in response to the petition we received earlier this year. Attached is a pre-decisional draft summary of the monitoring and modeling data. The bottom line is that ATSDR needs longer term air monitoring at lower detection limits to assess health risks related to ammonia and hydrogen sulfide.

We would appreciate the opportunity to speak with you about this draft summary and potential next steps for ATSDR and your agencies. Kindly fill out this scheduling poll by tomorrow (Thurs 7/20) to help me find a time.

Feel free to contact me with any questions.

Best,

Ben
