Hello Everyone,

This is another set of EPA documents for review-comment. As with the first document sent this morning, you may have received these EPA documents through other channels, including

OMB or CDC-Washington. Please instead direct your comments to this mailbox, NCEH/ATSDR Responses (CDC) <ncehatsdrresponses@cdc.gov> with cc to me, Dorris, Janice V. (CDC/DDNID/NCEH/OD) vgi5@cdc.gov for review and response by OPPP and submission through IMAC.

Please send any comments in track changes by COB Monday, October 7, 2019. Please change the username to NCEH/ATSDR prior to entering comments in the documents (instructions attached).

As a reminder, the attached materials are deliberative and pre-decisional. Feel free to share within your division as appropriate, but please do not share externally. If you feel they need reviewed by others, please let us know.

Thank you,

Janice Dorris, JD, MBA
CDC/CCEHIP/NCEH/ATSDR/OPPP

Subject: RE: follow up on pfas exposure

Andy – sounds like a great idea. I'm cc'g Chris Reh on this email - he can help to set it up.

Pat

Subject: follow up on pfas exposure

Hi Pat – good discussions today, I look forward to seeing the reports when you are ready to release them, there will be lots of interest.

Just for your awareness, wanted to let you know that we have been working on developing several PFAS geospatial tools, enabling users to explore different PFAS related spatial data sets (mainly PFAS sources and samples) and optionally to incorporate your own geospatial data for analysis. The tools are not yet public, not cleared for external release outside EPA, but we have been building awareness within the agency and with at least one partner – USDA – looking at some PFAS agriculture issues. As the tools get close to a public release, we will be arranging a demo for the full TWG.

If your folks working on the exposure analyses would like a demo, we could arrange that – let me know. It might help speed up the process of looking at different places and identifying potential sources of PFAS impacting a particular area. I am pretty sure we could hook your folks up with access if you found it useful (sites are currently behind the EPA firewall).

Best regards, Andy

Andrew J. R. Gillespie, Ph. D.
