Dear all,

The JMPR report was posted this morning on http://www.who.int/foodsafety/en/ precisely 2 weeks after the end of the meeting. A great thanks to all of you and a special thanks to our Editor and to FAO colleagues who went through the official publication process so efficiently.

I would like to mention again that this publication does not release you from the obligation for confidentiality regarding the discussions during the meeting. On this point as well as for any question related to the WHO procedures, please continue re-directing the journalists to WHO.

Best regards,

Philippe
