RESOLUTION NO. 37153

BOARD OF SUPERVISORS, COUNTY OF SAN MATEO, STATE OF CALIFORNIA

oooooooo

RESOLUTION OF THE COUNTY OF SAN MATEO REGARDING DEVELOPMENT OF AN AIR QUALITY MAINTENANCE PLAN FOR THE SAN FRANCISCO BAY AIR QUALITY MAINTENANCE AREA

RESOLVED, by the Board of Supervisors of the County of San Mateo, State of California, that

WHEREAS, it is State policy as a part of the Clean Water Grant program to coordinate Water Quality Planning and construction activities with Air Quality Planning activities; and

WHEREAS, Federal Regulations (40CFR 35.925-14) require that wastewater treatment works funded with Federal funds comply with all pertinent requirements of the Clean Air Act and other applicable Federal, State and local environmental laws and regulations; and

WHEREAS, the Environmental Protection Agency in a policy statement to the State Water Resources Control Board stated that grant applicants for Federal funds are expected to demonstrate that attainment and maintenance of the standards will not be interfered with by the proposed project and the population it serves; and

WHEREAS, San Mateo County is a part of a designated Air Quality Maintenance Area because of present and projected future air pollution problems; and

WHEREAS, the Sewer Authority Mid-coastside is seeking funds from the Federal Environmental Protection Agency to help finance an improved common sewage treatment and disposal system to solve a critical water quality problem on the San Mateo County Mid-coastside; and

WHEREAS, the improvement of said sewage treatment and disposal system may accommodate the location of more residents on the Mid-coastside and thus increase the potential for air pollution in the San Francisco Bay Air Basin and may interfere with the attainment and maintenance of air quality standards; and

WHEREAS, the Federal Clean Air Act of 1970 and the regulations promulgated by the Federal Environmental Protection Agency require that an Air Quality Maintenance Plan be prepared for all Air Quality Maintenance Areas; and

WHEREAS, the California Air Resources Board intends to develop and implement such Air Quality Maintenance Plans within the next two and one-half (2.5) years in cooperation with local government.

NOW, THEREFORE, BE IT RESOLVED that San Mateo County recognizes that the project may interfere with the attainment and maintenance of air quality standards but that the project is needed to solve a critical water quality problem, and that adequate steps to mitigate the air quality impact have been taken or are planned.
