Subject: U.S. EPA to Hold Public Webinar on March 23rd - Re: Water Infrastructure Improvements for the Nation (WIIN) Lead Notification Strategic Plan

Dear Colleagues:

EPA has announced that it will be hosting a public webinar on March 23rd -- and a second public webinar in May (date TBD) -- to discuss the lead notification strategic plan that the agency is required to develop pursuant to the Water Infrastructure Improvements for the Nation (WIIN) Act, enacted in December 2016.

The WIIN Act requires that EPA work with states and public water systems to notify and provide information to homes and communities once EPA receives drinking water data that indicates a household has drinking water levels above EPA's lead action level (0.015 mg/L).

These notifications are in addition to those currently required under the existing Lead and Copper Rule. WIIN also requires that EPA develop a strategic plan within 180 days that describes how the Administrator, states, and public water systems will work together to provide public education to populations affected by lead.

The first webinar will take place from 12:30-2:30 pm EDT on March 23rd. The purpose of the webinar will be to review a draft strategic plan that identifies roles and responsibilities for EPA, states, and public water systems under the requirements of WIIN. EPA encourages all states, public water systems, and interested stakeholders to participate.

More details on the webinar, including registration information, is available here: https://www.epa.gov/dwreginfo/strategic-plan-targeted-outreach-populations-affected-lead. We also plan to post an agenda and the draft plan at the same website in advance of the March 23 webinar.

Please let me know if you have any questions or would like any additional information.

Regards,

Brent Maier
