Subject: FYI

Dear Barry,

On Feb. 17 you left me and Jim Woolford a voicemail message concerning a conversation you had with Michael Bradley, representing PSEG and one or more other companies that are members of the Passaic River Cooperating Parties Group (CPG). Mr. Bradley told you that these companies are interested in possibly doing some "work in the upper river." You advised Mr. Bradley that the group should first contact me to discuss the proposal. I'm following up to let you know that no such contact has yet been made. We will let you know if and when we do hear from them about this proposal.

Thanks, and sorry for my delay in getting back to you.

Walter
