Subject: FYI re: Passaic

FYI: Yesterday I finally did something I should have been doing for the past ten days, which is to check the voicemail box for the phone number I had been using while sitting on the 26th floor. I found there one voice message, dated Friday, Feb. 17, from Barry Breen to me and Jim Woolford. Barry reported that he had been called by Michael Bradley, the lobbyist for PSEG who has spoken with EPA HQ about Passaic on a number of occasions in the past couple of years. Mr. Bradley told Barry he was calling on behalf of a number of companies that are members of the CPG. These companies are interested in possibly doing some work "in the upper part of the river" [which I assume means the upper 9 miles of the 17-mile Lower Passaic River]. Barry asked if the group had contacted Region 2 to discuss this proposal; Mr. Bradley said he did not know. [They had not.] Barry suggested to Mr. Bradley that he or another CPG representative contact me to discuss the proposal before any further discussion with Headquarters. [No such outreach has occurred in the past two weeks since Barry's conversation with Mr. Bradley.]
