Arsenic should be removed to 10 p.p.m

The arsenic lead soil test should be extended to Whittier neighborhood.
Why did it stop short of testing this area until the end of contaminated soil is clear?

I support the Cover proposal

How long are you proposing to stay in our community to monitor our children's blood? How are you going to handle the transitory behavior of families in the community? You were thinking? How does your thinking correspond to actualizing a long term monitoring program?

The details are missing / yet vital to us.

non empowering terms used thinking about
- try
- look at
