999 18th St. Suit 300
Denver, Co 80202

Dear Bonnie;

Thank you for the opportunity to comment on the proposed Clean up plan. I read the written Comments Cease, proposed by Lorraine Granado. I thought she did a excellent job. I support her comments. She is not holding up money. She wants more Health study information. Lorraine Neighborhood will be the next study.

Numbers 4 & 5 would be my choice, Public Health at the top of the list. Reduce the Health risk by reducing the exposure to Arsenic and lead to a lower Clean up level.

Levels low, enough that Heath is no longer a concern. For better health as soon as possible.

Parents are not going to Water Children Close enough. Belive me I know. I am a Great grand Mother of five. Grandmother of Eleven total (16) sixteen. Have lived in my home over 40 years. I am tired of trying to teach.

A T S D R with Colo. Department of Health University of Colo and all that are doing a Health Investigation is a good thing. Bioavailability test, Lead Base paint, lead removal and action. All the Home Children or no Children Educate People in this Neighborhoods to reach & live a better Quality of Life, no more illness from these unhealty things in our environment.

Thank you
Joan Hooker
