Methyl Bromide - Proposed FY16 RARE Project_ADD ORD Update.docx
MEMORANDUM_ORD Lab Study Request-MeBr Background_Signed 02-03-2016.pdf
Update on the EPA MeBr study Feb 1 2017_Post QA Clean ver.docx
FINAL-May 2017-Methyl Bromide Update.docx

Hi Ken,

Please see below – realize this is quite technical, but let me know if this helps! I think you wanted the study – please see attached docs.

Got this from my team – sorry for the delay.

Richard

Attached are some materials about the methyl bromide issue.

1. The PDF document is the original request for technical assistance that ORD received from Region 10

2. One of the Word documents is the original project proposal. I'm including this because I think it gives a nice up front description of the problem and a pretty straightforward description of the research. We've added a paragraph at the end of this document to provide a summary of where we are now.

3. Another Word document is a draft report detailing the project and findings. Please note that this report is still draft, is still undergoing QA, and has not yet been cleared within ORD.

4. The final Word document is a one-pager that Region 10 prepared and that we understand was shared with Ken earlier this week.

Please let us know if you have questions or if we can be helpful in some other way.

I'm including Cindy Sonich-Mullin and Alice Gilliland here since NRMRL was involved.

Thanks,

Sure - adding Kacee and Fred. Please see below. Looking for the report out on Methyl bromide RARE project.

Others have thoughts on Ag topics? I'm assuming he's asking OP. What about nutrients? Do we have a short overview?

Hi Guys - I'm sure I'm leaving someone out, so please forward if appropriate - could we please see if we can help Ken with his request? Thanks much,

Richard

Richard:

Speaking Thursday to a group of State AG directors and would love to get the ORD RARE report on Methyl Bromide...

Also, any other thoughts that may be helpful as it relates to AG...it is a Q&A panel so I want to be well-prepared.

Looking forward to Alaska...

Ken
