RE: PROPOSED CITY ORDINANCE ON SEWER SYSTEM

---

I have reviewed the proposed city ordinance regulating the use of public and private sewers and drains, private sewage disposal, the installation and connection of building sewers, and the discharge of waters and wastes into public sewer systems which you submitted to me for study.

A thorough analysis of this proposed ordinance reveals that it contains duplications of the Uniform Plumbing Code of this City, although this ordinance is more thorough and explicit than our Plumbing Code requirements on waters and wastes allowed to be introduced into public and private sewers.

It is my opinion that this proposed ordinance is good in that it does overcome many of the inadequacies of Chapter 11 of our Plumbing Code; therefore, I would recommend that our Uniform Plumbing Code be amended in so far as making reference to this ordinance after its adoption.
