Jan 31 = Hwy 36 call
= Oregon Health Authority will be the lead on media for questions on EI report (ATSDR & OHA co-author the report)
Send out as hot issue → = Environmental results will go out to households in a few days (hopefully by Friday, Feb 3) Dave Farrer
= very few detects in water, food, & soil
- those detects are very low
= EI report for urine in about a week?
- talking points in development for urine results and a separate set of points for environmental letters

he doesn't / Ask Mark MacIntyre if he wants to see the EPA response to data processing @ ODA lab
- EPA is writing a Q&A about our confidence in the lab & the data, and some explanation of what the data qualifiers mean

he'll call Bruce / Public Radio International is doing interviews - a story about the Triangle Lake study ...

HQ is preparing a response to a NY Times freelancer

Mark looped Marianne in yesterday / Lee Vander Voo is now pitching the story to Slate.com
she's got a Monday deadline

next hill group meeting Tuesday Feb 14 afternoon (2:00 tentative)
