Subject: Review and Comments on Attachment R of the revised Excelsior permit application.

Hi Nancy,

Attached are my comments on the Excelsior responses to our previous comments on Attachment R of the UIC permit application. I have used the previous comment document from the May 10
~~~~~~

Technical Review letter to Excelsior to present my current comments on the deficiencies in the revised Attachment R and the Excelsior responses to our previous comments. New comments are presented in blue font. Is this the format that you prefer for our comments on the Excelsior responses provided in other attachments to the revised application?

I have reviewed the revised application and posted comments for my use and reference in the application PDF document, but that does not address the deficiencies of the responses to the May 10 comments directly. I plan to use the format of my comments on Attachment R for the format of my comments on the other attachments to the revised application unless you prefer a different format. I did not send this to Cadmus for QA review because I consider it a preliminary draft for discussion on the calls with you and Excelsior tomorrow.

If you have any questions or comments, please let me know.

Thanks,

Jim
