I think that would be useful because I would like to discuss the Conductivity Sensor monitoring with Jim and prepare for tomorrow's call.

Ok, Shari can you attend the call with us and ADEQ, Friday 11 am to 12 for support on describing the differences between the draft ADEQ permit and our proposed draft conditions.

I also want to cover the clarification on the ADEQ specific conductance sampling.

Thanks, Nancy

Hi Nancy,

Shari Ring at Cadmus was the lead on the review of the ADEQ draft APP in comparison with the draft UIC permit terms and conditions. I reviewed and added comments to the comment document you received, but suggest you invite her to the conference call on Friday and the call with me today a 1 pm.
~~~~~~

Thanks,

Jim
