Subject: Summary of Conference Call Discussion Topics with Excelsior on August 31.

Hi Nancy,
~~~~~~

The attachment is a summary of the draft permit topics discussed and the status of remaining disagreements with Excelsior regarding draft permit terms and conditions. The discussion concluded on page 23 of the permit, which is approximately the first half of the permit. The balance will be discussed with Excelsior in the next conference call on September 7.

Should we proceed with the clarifications and agreed upon revisions to the draft permit or do we need to discuss the suggested revisions further before making any changes? Some of the suggested revisions were not fully acceptable and require further EPA review and consideration. Do you want to discuss the rest of the comments on pages 24 to 45 of the permit before the conference call on Thursday?

If you have any questions or additions to the summary, please let me know or feel free to add to or edit my comments.

Thanks,

Jim
