Excelsior -- draft AE ROD NR.docx

Hi Shari,

Please see the following attached file for my comment replies. Please review my comments and let me know when I can discuss with you. A few clarifications are needed.

Thanks, Nancy

Subject: Excelsior AE - draft ROD
~~~~~~

Hi Kate, Nancy, and David

Attached is a draft of the ROD for the Excelsior AE. There are several comments in the document, including questions for EPA and some things that we may need to ask Excelsior to provide. Please let us know if you want to prepare a formal set of questions.

One overarching comment: much of what is in here does not come from Attachment S. This may not be an issue, unless EPA wants to have an AE request that is self-contained and complete. (This was important for the California Class II RODs, but that process was different.) If so, we may want to ask Excelsior to beef up Attachment S based on information that is elsewhere in the Class III permit application or the APP application.

Highlighted notes in the attached identify figures we could use in the ROD; please let us know if you would like us to compile these into a document. (The files get big pretty fast when we do that.)

Please let us know if you have any comments or would like to discuss the attached.
