RE: September 2012 RCRA Facility Investigation Report
Former Caribe GE Product Facility, Río Piedras, Puerto Rico
PRD000692590

Dear Mr. Robinson,

The U.S. Environmental Protection Agency (EPA), in conjunction with the Puerto Environmental Quality Board (EQB), has reviewed the September 2012 *RCRA Facility Investigation Report* for the former Caribe GE Product facility located in Río Piedras, Puerto Rico. After careful evaluation, EPA concurs with GE that the investigation has been completed and No Further Action (NFA) is necessary at this site. Therefore, this September 2012 RFI Report is approved by EPA.

If you have any questions regarding this matter, please contact geologist David N. Cuevas, Ph.D. at (787) 977-5856 or through electronic mail at cuevas.david@epa.gov.

Sincerely yours,

José Font, Acting Director
Caribbean Environmental Protection Division
