Lynda,

As requested, attached is the document tracking spreadsheet with all rows and columns visible. I also added the additional column at the end for "Washoe Document Tracking Number." Feel free to modify this new column to best feet the Washoe's needs. There should be no access restrictions applied to this worksheet so let us know if you have any issues with it.

Thanks,

Marc

Hello Marc,

Meet Susan.

Susan is the new Program coordinator for the Washoe Tribe of Nevada and California.

She is coming up to speed on documents and history etc. and it would be helpful to have this document with all of the columns visible. (This version you sent has some hidden lines, and I don't seem to have authority to unhide them). Could you resend?

Lynda

And per our conversation would it be okay if the tribe added one column at the end….

for cross referencing their own in-house document numbers?
