I will need a final head count in advance of the meeting. How about by EOD Monday?

We will meet at 8:30 at 395 and Leviathan mine road and collect together--transfer into--minimum vehicles necessary to depart to the site.

Please try to keep it to key personell You are correct that we want to consider safety conditions hazardous superfund site and we will need to prepare site maps, copies of full release of liability forms, safety gear that will be necessary and provided.

No shorts. No Short Sleeves. Must have covered and solid shoes. Please have Sunscreen, sunglasses and Reuseable water bottles.

I am copying Atlantic Richfield, so that they can provide a point of contact for the tour they will be providing and anything else I might be missing in regards to Health and safety.

Lynda

Hi Lynda –

BIA Western Nevada Agency has informed me that they will be taking their own vehicle to the Leviathan site tour, although I have recommended for safety reasons, that we limit the number of vehicles out on the site.

Can you please make recommendations to Montina and RJ about travel out the Leviathan site for the tour and any logistics that need to be discussed?

Hi Gerry, RJ, and Montina,

The Washoe Tribe will be conducting a site visit of the Leviathan Mine site with EPA, Lahontan, and potentially representatives from ARCO, on May 18th. We will be looking at the spring treatments that Lahontan and ARCO have initiated, in light of the large snow pack we have.

We like to invite you to attend the site visit – tentatively scheduled for between 8:30-12:30. We will be leaving from Tribal Headquarters, and will arrange for transportation. Please let me know if you would like to attend, and I will reserve a spot for you in one of our vehicles.

Please let me know if you have any questions!
