Agenda and Purpose for January 17_2017 Meeting on Leviathan RI_FS Schedule.pdf

Josh – As you and I discussed on Monday, I'm forwarding Atlantic Richfield's proposed agenda for the management meeting on 1/17. I'm also including a short narrative explaining why Atlantic Richfield requested the meeting, some of Atlantic Richfield's concerns with EPA's proposed schedule, and what we hope to accomplish in the meeting. Please share this with your clients. We continue to believe that the focus of the discussion should be on the sequence and schedule for completing the major components of the RI/FS, as prescribed by the UAO. We do not see this as a technical discussion of specific RI, FS, or risk assessment tasks or deliverables. As a result, Atlantic Richfield believes it would be best to limit participation to the project RPM and EPA management and counsel. As I said to you, Dana Barton's participation seems to be especially important, given her current role as acting Branch Chief and soon-to-be role as Section Chief for this site. We are looking forward to a productive meeting.
