William Fisher 812-847-2401 2/4/14 2:10 pm

Problems continues, still blasting, less in winter, everyone still suffering, it's only a mile away

"Air-over" blasting - worst

Dust still there every morning - need to clean cars, window

Peabody tells them they are in compliance

He talks to Indianapolis

"Pre-blast" survey - Peabody comes (3rd party) & takes photos & does oral narrative, documents pre-blast conditions

He says he has cracked walls, ceilings, foundation but has not yet sought compensation, wants to wait until they're done

Acknowledges it's moving west
