Hi Rosemarie,

I did have my briefing, but it was not to decide when to reschedule the meeting. We will make that decision after we have a fact sheet and slide presentation that is near to final. We will need to work with our communications folks and also have these items reviewed by both my management and Region 5 management. Once that all happens, we can look to scheduling the meeting. Listen to your surgeon and get the needed rest and recovery. As you start to feel better, we can schedule time to talk about both the fact sheet and slides and get the ball rolling again.

Danelle

Subject: briefing?

Hi Danelle,

have you had your briefing about our rescheduling the community meeting? Please let me know if it took place or when it will. I want to write personally to Jaylen and the professor who helped me get the room when we reschedule.

Thanks. I am getting some vision back in the R eye but it is slow and my surgeon wanted me to still lie flat most of the day in order to have maximum gain.

Thanks much Danelle,

Rosemarie
